Best Cybersecurity Practices for Boards

Total: **59 Minutes**

Speaker:
Daniel B. Garrie

Description/Table of Contents

Cyber attacks and data breaches can have enormous consequences for corporations and a company's board members must be diligent in taking action to mitigate these risks and take the appropriate action when such an incident occurs. This program will help in-house and outside counsel understand this problem to better counsel their clients' board members on these issues. The speakers will cover the cyber risk landscape, the attorney's role in cyber risk management and incident response, the regulatory guidance and requirements, and how to conduct a cyber risk assessment. Among the topics discussed are:

- Cyber risk landscape (9 min.)

- Attorney role in cyber risk management and incident response (22 min.)

- Regulatory guidance and requirements: SEC & FTC (15 min.)

- Prevention over cure: Cyber risk assessments for boards (13 min.)

Total: 59 minutes

Speakers

Daniel Garrie is the co-founder of Law & Forensics LLC and leads the Cyber Security and Forensics Practice teams. He has been a dominant voice in blockchain, cryptocurrency, computer forensics, and e-discovery for over 20 years. He is also an Arbitrator, Forensic Neutral, and E-Discovery Special Master at JAMS (https://www.jamsadr.com/garrie/). Daniel has successfully built and sold several technology start-ups companies. Since co-founding Law & Forensics LLC in 2008, Daniel has made it into a leading boutique cybersecurity, cryptocurrency, blockchain, and forensic engineering firm.

Daniel regularly testifies as an e-discovery, cybersecurity, and computer forensic expert witness, authoring forensic expert reports on multi-million-dollar disputes. His ability to perform complex investigations and effectively communicate the results to a jury has made him one of the most sought-after experts in the country. His testimony has been pivotal in several cases involving complex cybersecurity and forensics, including most recently testifying as a cybersecurity expert witness regarding cybersecurity issues specific to vehicles in Federal Court in Massachusett before Judge Woolock earlier this year.
