LexVid Services, Inc., Presents:

IP Issue Spotting for the Non-IP Attorney

Total: **60 Minutes**

Speakers:
Kirby Drake

Description/Table of Contents

Attorneys practicing in all areas often run into intellectual property issues affecting their clients. This program will help non-IP practitioners issue spot for IP issues that may arise in their practices. It will address the basics of trademark, copyright, patent, and trade secret law, as well as walk through several issue spotting scenarios to identify relevant IP concerns.

- Trademarks (15 min.)
- Copyrights (15 min.)
- Patents (15 min.)
- Trade dress (15 min.)

Total: 60 minutes

Presenters:

Kirby Drake is a partner at Klemchuk LLP. She is experienced in all areas of intellectual property law, including trade secret, patent, trademark, copyright and confidential information matters. She focuses primarily on intellectual property litigation and patent prosecution, addressing a broad range of technologies, including chemical, pharmaceutical, telecommunications, aerospace, and computer-related matters. Kirby has a wide range of litigation experience, largely focused on patent litigation, having been an integral part of trial teams working on matters from the initial filing phase through trial, both on the plaintiff as well as on the defense side. She also has significant experience in electronic discovery in various types of litigation matters, including managing various e-discovery platforms; she also regularly writes and speaks on the subject and recently taught a law school course on Principles of E-Discovery.
