U.S. Customs and Border Protection

I-94 Expiration Dates

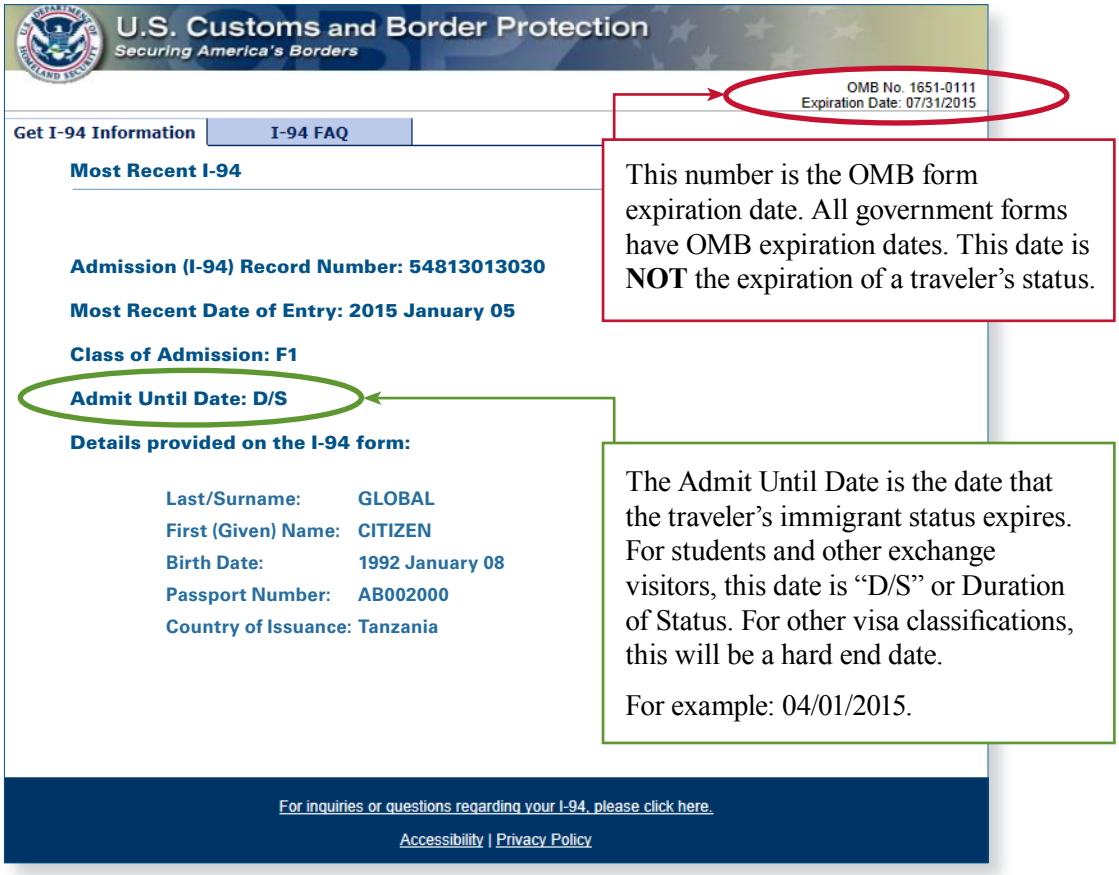

FACT SHEET

Overview

Form I-94 is an arrival/departure record issued by U.S. Customs and Border Protection to foreign visitors to the United States. In May 2013, CBP automated Form I-94 for air and sea arrivals. If travelers need a copy of their I-94 record for verification of alien registration, immigration status, work authorization or any other benefit, the I-94 can be obtained and printed from www.cbp.gov/I94. The I-94 record obtained from the website serves the same purpose as the previously issued I-94 record and should be treated by the Department of Homeland Security components and other stakeholders in the same manner.

I-94 Expiration Dates

The electronic I-94 has three dates printed on the form. The first date in the top right-hand corner is the Office of Management and Budget (OMB) form expiration date. All government forms include OMB dates. The OMB validity date changes periodically and an expired OMB date does **not** invalidate the I-94 record or form. OMB dates are **not** related to a non-immigrant's status in the U.S. The most recent date of entry indicates the date a traveler entered the U.S. The 'Admit Until Date' is the date that the traveler's immigration status expires in the U.S. The 'Admit Until Date' should be used for U.S. Citizenship and Immigration Services (USCIS) or public benefits from other government agencies.
